§51.190

- (e) Storage of drugs and biologicals. (1) In accordance with State and Federal laws, the facility management must store all drugs and biologicals in locked compartments under proper temperature controls, and permit only authorized personnel to have access to the keys.
- (2) The facility management must provide separately locked, permanently affixed compartments for storage of controlled drugs listed in Schedule II of the Comprehensive Drug Abuse Prevention and Control Act of 1976 and other drugs subject to abuse.

§51.190 Infection control.

The facility management must establish and maintain an infection control program designed to provide a safe, sanitary, and comfortable environment and to help prevent the development and transmission of disease and infection.

- (a) Infection control program. The facility management must establish an infection control program under which it—
- (1) Investigates, controls, and prevents infections in the facility;
- (2) Decides what procedures, such as isolation, should be applied to an individual resident; and
- (3) Maintains a record of incidents and corrective actions related to infections.
- (b) Preventing spread of infection. (1) When the infection control program determines that a resident needs isolation to prevent the spread of infection, the facility management must isolate the resident.
- (2) The facility management must prohibit employees with a communicable disease or infected skin lesions from engaging in any contact with residents or their environment that would transmit the disease.
- (3) The facility management must require staff to wash their hands after each direct resident contact for which

hand washing is indicated by accepted professional practice.

(c) *Linens*. Personnel must handle, store, process, and transport linens so as to prevent the spread of infection.

(Authority: 38 U.S.C. 101, 501, 1710, 1741-1743)

§51.200 Physical environment.

The facility management must be designed, constructed, equipped, and maintained to protect the health and safety of residents, personnel and the public.

(a) Life safety from fire. The facility must meet the applicable provisions of the National Fire Protection Association's NFPA 101, Life Safety Code (2009 edition), except that the requirement in paragraph 19.3.5.1 for all buildings containing nursing homes to have an automatic sprinkler system is not applicable until August 13, 2013, unless an automatic sprinkler system was previously required by the Life Safety Code and the NFPA 99, Standard for Health Care Facilities (2005 edition).
